

PRODUCT CATALOG

Premium
Caulks
and
Sealants

White Lightning®, the choice of building industry professionals and DIYers for nearly a century, has updated its packaging. Our new cartridges make it easier to identify and choose the right product for your project. From all purpose caulks and sealants, to those designed specifically for windows & doors or kitchens & baths, White Lightning® has the right sealant for your project.

Contents

ALL PURPOSE

4-6

Superior flexibility and elasticity for a variety of interior and exterior uses.

PROMAX®

7

Thick, heavy-bodied products apply easily and tool with a silky smooth feel and finish.

KITCHEN | BATH

8

Stands up to high humidity and surface water. Excellent adhesion to natural stone, ceramics and wood.

WINDOW | DOOR

9

Specially formulated, providing adhesion and flexibility to withstand both harsh weather and fluctuating temperatures.

SPECIALTY

10-13

For concrete or mortar repair, roof repair and gutter lap installation, smoke & fire blocking and weatherproofing.

FIX'N FINISH®

14-15

Formulated for smooth and easy application, long-lasting durability, and top performance.

We Have A Caulk for That

- **Silky Smooth Texture**
Finishes easily for a smooth, professional finish.
- **Smooth Application**
Special filling process removes air in cartridge, eliminating gaps, skips and bubbles.
- **Non-Slump Formula**
Extra-firm consistency and outstanding adhesion: won't run or sag before tooling.
- **Paintable**
Most caulks & sealants can be finished with quality paints (check individual products for painting instructions).
- **Non-Yellowing**
Formulas contain UV stabilizers to prevent fading and yellowing.
- **Time-Saving**
Premium product performance and smooth, even application prevents need for re-work.
- **Easy Water Clean-Up**
Water-soluble latex formulas clean-up easily with water.

Packaging Architecture

The White Lightning® brand team has gained a clear understanding of what our customers are looking for when they shop for caulks and sealants. These findings have been the inspiration for the updates to the White Lightning® brand and packaging.

Consumers equate price with quality and value of a product, but sometimes that doesn't easily translate when comparing cartridges side by side. Beyond warranty, we chose to use colors and key selling features to differentiate the good, better, and best products.

White Lightning® has also introduced bilingual on the new packaging. The new labels accommodate the expanding consumer base by featuring English on one side and Spanish on the other, while staying true to the easy to read packaging architecture.

* Not all product images in the catalog will reflect new design.

WE HAVE A CAULK FOR THAT

White Lightning® All Purpose caulks and sealants provide flexibility and elasticity for a variety of interior and exterior uses. The availability of silicone and latex formulations provide superior performance on a wide range of surfaces.

SILICONE ULTRA All Purpose Sealant

This 100% silicone product is the perfect choice for many interior applications. Its durability, UV resistance and superior expansion and contraction capabilities also make it an excellent choice for exterior jobs. It is commonly applied at windows, doors, trim and in many other general purpose applications.

For use on: ceramic tile, wood, glass, fiberglass, vinyl, metal and most plastics

- Water/weathertight seal
- Permanently flexible
- Non-shrinking, non-yellowing formula

Meets or exceeds the Federal Specifications of TT-S-001543A Class A (Com-NBS), TT-S-00230C Class A (COM-NBS). Exceeds performance requirements of ASTM C-920 Type S, Grade NS, Class 25 and CAN 2-19, 13-M82.

PRODUCT	COLOR	SIZE
WL09012	Clear	10.0 fl.oz.
WL09212	White	10.0 fl.oz.

SILICONE RUBBER All Purpose Sealant

This highly flexible, non-shrinking 100% silicone sealant features outstanding protection against water and weather damage. Its excellent durability and flexibility make it the perfect sealant for areas exposed to heavy wear and harsh elements. Commonly applied at windows, doors, trim, siding and in many other general purpose applications.

For use on: ceramic tile, porcelain, vinyl, wood and glass

- Highly flexible, watertight seal
- Non-shrinking
- Resists moisture and mildew
- RTV formula
- Excellent adhesion*
- Interior/exterior use

Meets or exceeds Federal Specifications of TT-S-001543A Class A (COM-NBS) for silicone building sealants, TT-S-00230C Class A (COM-NBS) for one-component sealants. Exceeds performance requirements of ASTM C-920, Class 25. NSF and USDA listed.

* Not for use on porous natural materials such as granite, marble, masonry and some metals. Curing process can cause lack of adhesion and may harm these materials. For best results on these surfaces, use Silicone Ultra All Purpose Sealant.

MEGALASTIC® Super Elastic Sealant

PREMIUM LIFETIME

This premium sealant provides "stretchability" of over 700% and has outstanding flexibility and adhesion to most surfaces. Ideal for any caulking project, it is commonly applied to doors, windows, trim, crown molding and any joints where extreme movement can be expected.

For use on: drywall, wood, glass, masonry, concrete, metal, porcelain, plastic

- Superior "Stretchability" of over 700%
- Super adhesion
- No cracking
- Paintable
- Interior/exterior

3006 ULTRA® All Purpose Elastomeric Sealant

3006 Ultra® is a premium sealant featuring outstanding flexibility and adhesion to most surfaces. An excellent choice for any caulking project, it is ideal for filling joints where high levels of movement are expected. Commonly applied at windows, doors, trim, siding, tubs, showers, sinks, toilets, splashboards, countertops and other high movement joints.

For use on: drywall, wood, glass, vinyl, masonry, concrete, stucco, metal, porcelain and many plastics

- 40% more flexible than standard latex caulks
- Dries non-tacky – limits dirt pickup
- Bright white finish
- Paintable
- Water clean-up
- Interior/exterior use

Exceeds performance requirements of Federal Specification TT-S-00230C Type II, Class A and meets performance requirements of ASTM C-920, Class 35.

Tested at Riverbank Acoustical Laboratories in accordance with ASTM E90 and C-919, this product was sound tested and proven to be an integral component in maintaining STC/MTC partition ratings. It has also been tested in accordance with ASTM C- Stet and D-217.

BOLT® QUICK DRY Siliconized Acrylic Latex Caulk

BOLT® Quick Dry is a durable caulk that makes quick work of interior and exterior caulking projects. This Quick Dry formula can be painted within 30 minutes, keeping even the most time sensitive projects on track. Ideal for filling joints and openings around doors, windows, baseboards, trim, siding and vents.

For use on: wood, drywall, metal, glass and masonry

- PAINTABLE IN 30 MINUTES
- Good flexibility and elasticity
- Maximum durability
- Will not yellow

Meets performance requirements of Federal Specification TT-S-00230C, Type II, Class B and meets performance requirements of ASTM C-920, Class 12.5.

PRODUCT	COLOR	SIZE
WL20510	White	10.0 fl.oz.

3006™ ALL PURPOSE Adhesive Caulk

Original Formula White Lightning® 3006™ is a siliconized acrylic latex caulk perfect for most general purpose jobs. This super white formula has been a professional favorite for years. It is available in a variety of colors, including white and clear.

For use on: wood, drywall, metal, glass, vinyl, masonry and most plastics

- Smooth, professional application
- Excellent flexibility and elasticity
- Cured caulk is mildew & rust resistant
- Excellent color retention

Exceeds performance requirements of ASTM C-834

ALL PURPOSE

White Lightning® All Purpose caulks and sealants provide flexibility and elasticity for a variety of interior and exterior uses. The availability of silicone and latex formulations provide superior performance on a wide range of surfaces.

**PAINTER'S PREFERRED®
Acrylic Latex Caulk**

Painter's Preferred® is an economical general purpose product suitable for sealing multiple interior/exterior cracks and joints. Ideal for use on doors, windows and trim.

For use on: wood and glass

- Paintable
- Water clean-up
- Interior/exterior use

Meets ASTM Specification C-834, Grade NF

PRODUCT	COLOR	SIZE
WL30010-0	White <input type="checkbox"/>	10.0 fl.oz.

**EL SELLADOR™
Siliconized Acrylic
Latex Adhesive Caulk**

**STANDARD
40 YEAR**

El Sellador™, "The Sealer", is a quality caulk suitable for many general purpose jobs. Including windows, doors, trim and other molding. The cartridge and carton feature completely dual language, English/Spanish packaging.

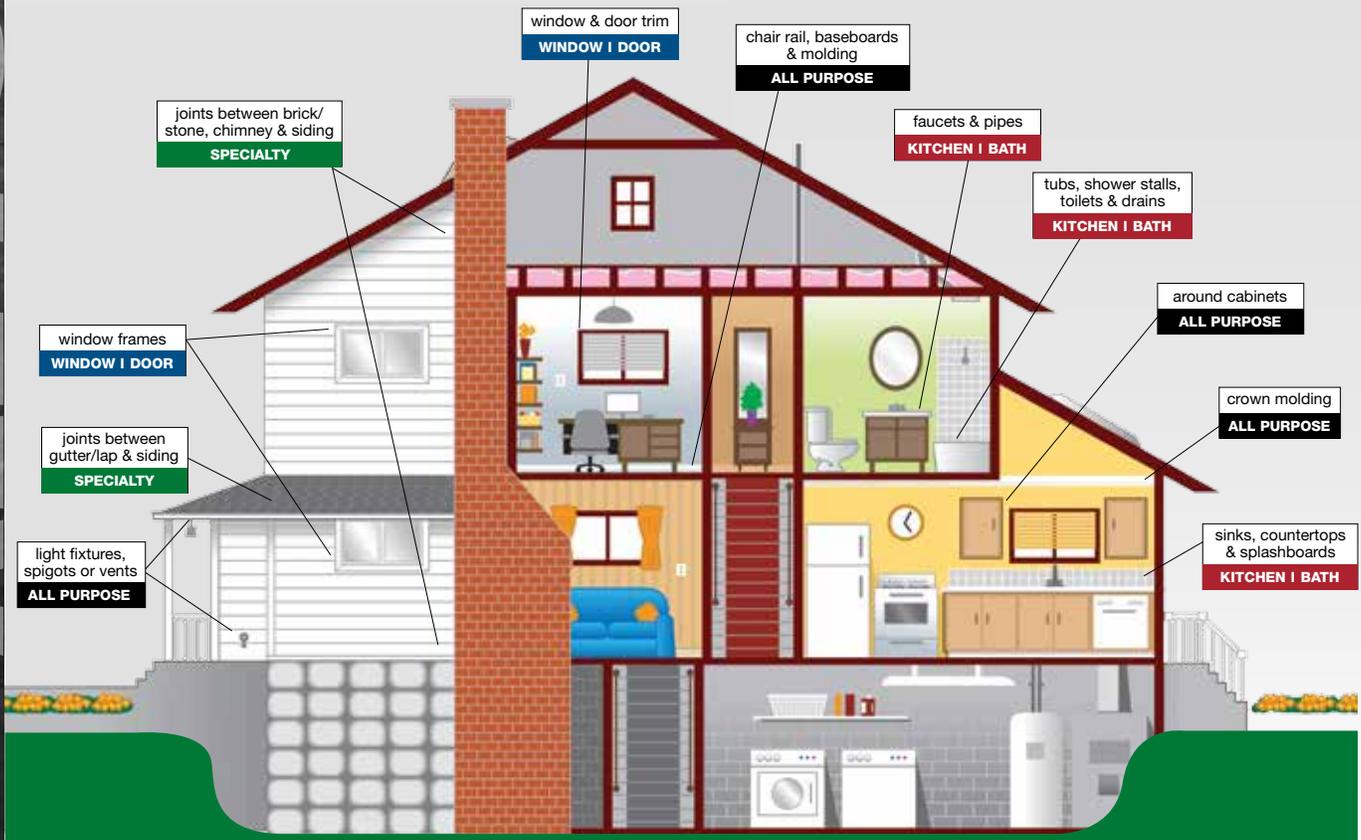

For use on: wood, drywall, metal and glass

- Great adhesion and flexibility
- Water clean-up
- Interior/exterior use

Meets the performance requirements of ASTM C-834

PRODUCT	COLOR	SIZE
WL0004002	White <input type="checkbox"/>	10.0 fl.oz.

White Lightning® ProMax® line of caulks and sealants is a professional grade offering formulated to meet the performance and application demands of even the most selective professionals. These thick, heavy-bodied products apply easily and tool with a silky smooth feel and finish.

ProMAX 300 RCS-4™ **PREMIUM LIFETIME**
Acrylic Urethane Elastomeric Sealant

This heavy-duty premium elastomeric sealant is professional grade and formulated for outstanding performance on most general purpose caulking jobs. Its extremely thick and smooth consistency is favored among professionals.

For use on: wood, metal, concrete, brick, plaster, masonry, drywall and tile

- Excellent durability
- Outstanding adhesion
- Heavy-bodied formulation
- Silky smooth texture
- Interior/exterior use
- Paintable

Meets or exceeds ASTM C-920, Grade NS, Class 25 (Class A)

PRODUCT	COLOR	SIZE
W60300010	White <input type="checkbox"/>	10.0 fl.oz.

ProMAX 200 **STANDARD 50 YEAR**
Siliconized Acrylic Adhesive Caulk

This 50 year siliconized acrylic latex adhesive caulk is the perfect choice for customers looking for a heavy-bodied, professional grade product. It is an excellent choice for areas of low to moderate joint movement.

For use on: wood, metal, concrete, brick, plaster, masonry, drywall and tile

- High performance
- Great durability
- Interior/exterior use
- Paintable

Meets or exceeds ASTM C-834, Grade 0°C, Type OP

PRODUCT	COLOR	SIZE
WL0000200	White <input type="checkbox"/>	10.0 fl.oz.

ProMAX 100 **ECONOMY 45 YEAR**
Siliconized Acrylic Latex Caulk

This economy grade, professional siliconized acrylic latex caulk is a great choice for sealing areas of low dynamic movement.

For use on: wood, metal and drywall

- Cured caulk resists mildew
- Resists paint cracking
- Interior/exterior use
- Paintable

Meets or exceeds ASTM C-834, Grade 0°C, Type OP

PRODUCT	COLOR	SIZE
WL0000100	White <input type="checkbox"/>	10.0 fl.oz.

White Lightning® Kitchen & Bath high-performance products that stand up to high humidity, surface water, and a variety of natural materials including granite and marble, ceramics and wood.

SILICONE ULTRA Kitchen & Bath Sealant

This permanently flexible formulation is used to seal cracks or joints in many kitchen and bath applications. 100% silicone is extremely durable and will protect from damage caused by heat and water. It will not shrink or crack. Commonly applied at bathtubs, basins, sinks, showers, toilets, countertops and splashboards and ceramic tile.

For use on: ceramic tile, marble, granite, porcelain, vinyl, wood, metal and glass

- WILL NOT SHRINK OR CRACK
- Permanently flexible, watertight seal
- Cured sealant is mildew and rust resistant
- Interior/exterior use

Meets or exceeds performance requirements of Federal Specification TT-S-001543A Class A (COM-NBS) for silicone building sealants and TT-S-00230C Class A (COM-NBS) for one-component sealants, ASTM C-920, Class 25.

SILICONE SOLUTIONS:

By formulation, silicones stand up to extreme weather conditions and temperature variations. They are also extremely flexible. Silicone sealants adhere well to non-porous surfaces. WHITE LIGHTNING® Silicone Ultra products remain permanently flexible and will not shrink. Silicone Rubber products exhibit many of the same characteristics, but have a stronger odor and should not be used on naturally porous surfaces such as granite, limestone or masonry.

White Lightning® Window & Door is specially formulated to provide adhesion and flexibility to withstand both harsh weather and fluctuating temperatures.

SILICONE ULTRA Window & Door Sealant

Silicone Ultra Window & Door is an excellent choice for many interior and exterior projects. It provides excellent adhesion and flexibility as well as resistance against harsh weather elements. Commonly applied at windows, doors, vinyl siding, trim, etc.

For use on: wood, glass, fiberglass, metal, vinyl, masonry, stucco, plaster and many plastics

- WILL NOT SHRINK OR CRACK
- Permanently flexible
- Water/weathertight seal
- Cured caulk is mildew and rust resistant
- Interior/exterior use
- Excellent adhesion

Meets or exceeds performance requirements of Federal Specification TT-S-001543A Class A (COM-NBS) for silicone building sealants and TT-S-00230C Class A (COM-NBS) for one-component sealants, ASTM C-920, Class 25.

SILICONE RUBBER Window & Door Sealant

This highly flexible, minimally shrinking sealant provides a watertight seal around windows, doors and trim. The 100% silicone formulation offers outstanding protection against weather damage. It is especially effective in areas subject to heavy wear. Commonly applied at windows, doors, trim and siding.

For use on: wood, glass, fiberglass, some metals, vinyl, plaster and some plastics

- Highly flexible, watertight seal
- Minimal shrinking
- Cured caulk is mildew and rust resistant
- Protects against heat and water damage
- Excellent adhesion*
- Interior/exterior use

Meets or exceeds performance requirements of Federal Specification TT-S-001543A Class A (COM-NBS) for silicone building sealants and TT-S-00230C Class A (COM-NBS) for one-component sealants, ASTM C-920, Class 25 and is NSF and USDA listed.

PRODUCT	COLOR	SIZE
WL09217	White <input type="checkbox"/>	10.0 fl.oz.
WL09017	Clear <input type="checkbox"/>	10.0 fl.oz.
WL09715	Gray <input type="checkbox"/>	10.0 fl.oz.

* Not for use on porous natural materials such as granite, marble, and masonry. Curing process can cause lack of adhesion and may harm these materials. For best results on these surfaces, use Silicone Ultra Window & Door Sealant.

WINDOW & DOOR Siliconized Acrylic Latex Caulk

This siliconized acrylic latex adhesive caulk offers a weathertight/watertight seal for interior and exterior applications. The latex formula provides for easy application and easy water clean-up.

For use on: wood, vinyl, aluminum, plastic and metal

- Siliconized for extra adhesion
- Cured caulk is mildew and rust resistant
- Good flexibility and elasticity—no cracking

Meets performance requirements of ASTM C-834

PRODUCT	COLOR	SIZE
WL30600	White <input type="checkbox"/>	10.0 fl.oz.

WINDOW & DOOR Siliconized Acrylic Latex Glazing Compound

Window & Door Latex Glazing Compound is a siliconized vinyl co-polymer, blended from a unique combination of high quality pigments and resins that will not crack or yellow with age. It is specially formulated for sealing glass in wood, metal and aluminum window frames.

For use on: wood, metal and aluminum windows

- Seals window panes in wood and metal frames
- Excellent adhesion and flexibility
- Watertight seal
- Will not crack or yellow with age
- Paintable
- Water clean-up
- Interior/exterior use

PRODUCT	COLOR	SIZE
WL08012	White <input type="checkbox"/>	10.0 fl.oz.

White Lightning® Specialty caulks and sealants provide superior performance for applications such as concrete or mortar repair, roof repair and gutter lap installation, smoke & fire blocking and weatherproofing.

STORM BLASTER® All Season Sealant

This super-elastomeric sealant is ideal for exterior use in extreme weather. It can be applied to cold or wet surfaces and still retain its excellent adhesion.

For use on: glass, wood, metal, paint, concrete, asphalt, brick, tile, fiberglass and most plastics

- Can be applied to wet and oily surfaces
- Excellent adhesion and permanently flexible
- Can be applied in temperatures ranging from 0°F to 140°F
- Exterior use

PRODUCT	COLOR	SIZE
W41401010	Clear	10.0 fl.oz.
W41000010	White	10.0 fl.oz.

WEATHER

SEASON SEAL Removable Weather Stripping

SEASON Seal is a temporary sealant that provides a clear, weathertight seal around interior and exterior areas where drafts are a problem.

For use on: windows, doors or other exterior openings

- **REMOVABLE AFTER USE**
- **INSULATES AGAINST DRAFTS AND LEAKS**
- Won't harm painted surfaces

PRODUCT	COLOR	SIZE
WL0959500	Clear	10.0 fl.oz.

WEATHER

LATEX CONSTRUCTION ADHESIVE

White Lightning® Latex Construction Adhesive provides instant grab on most porous and non-porous surfaces. It provides excellent adhesion and is ideal for interior application.

For use on: wood, concrete, brick, plasterboard, carpet, a variety of plastics, and metal

- Instant grab on most porous and non-porous surfaces
- Provides durable high strength bond

PRODUCT	COLOR	SIZE
W70100010	White	9.0 fl.oz.

ADHESIVE

STOP GAP!® Minimal & Triple Expanding Insulating Foam

These products expand to take the shape of gaps and crevices forming an airtight and waterproof bond to most surfaces. STOP GAP!® dries tack free in 15 minutes and cures in 8 hours. It can be trimmed, sanded and painted. Exposure to sunlight will cause discoloration. Exterior usage requires painting.

For use on: wood, metal, masonry, glass and most plastics

- Fills and insulates gaps and cracks
- Can be used as backer rod
- Water resistant
- Fire retardant

PRODUCT	COLOR	SIZE
TRIPLE EXPANDING * WL3333300	Tan	12.0 fl.oz.
MINIMAL EXPANDING WL1111100	Tan	12.0 fl.oz.
TRIPLE EXPANDING * WL3333320	Tan	20.0 fl.oz.

*Triple expanding foam should not be used to seal openings around windows and doors.

White Lightning® Specialty caulks and sealants provide superior performance for applications such as concrete or mortar repair, roof repair and gutter lap installation, smoke & fire blocking and weatherproofing.

POLYURETHANE ONE-COMPONENT SEALANTS - Smooth

This polyurethane one-component sealant is moisture cure, non-sag and gun grade. It is designed for a wide range of sealing applications in joints subject to structural movement. After curing, this sealant exhibits a flexible, resilient, rubber-like appearance that adheres to a wide variety of substrates and provides up to 50% total joint movement. It is especially effective between joints of dissimilar substrates. Commonly applied at window frames, doors, skylights, foundations, concrete driveways, expansion wall joints, fascia and siding.

For use on: concrete, cement, cementitious board, masonry, brick, stucco, wood, vinyl and aluminum

- Superior adhesion to many substrates
- Resists deterioration due to extreme weather, stress, movement, water and many chemicals
- Paintable after full cure
- Easy application
- CARB Compliant formulation

Meets or exceeds the test requirements of ASTM C-920, Class 25, Type S, Grade NS, Class 25, Use-NT, A, M, G, O. Federal Specification TT-S-00230C, Type II, Class A, Non-sag, One Component, CGSB 19, GP-13.

PRODUCT	COLOR	SIZE
WL091150A	White	10.1 fl.oz.
WL091160A	Limestone	10.1 fl.oz.
WL091180A	Black	10.1 fl.oz.

SILICONE ULTRA CONCRETE & MORTAR Repair Sealant

This 100% silicone sealant exhibits superior expansion and contraction properties making it ideal for use in repairing splits and cracks in concrete. It also guards against additional damage from ice and water. Its excellent adhesion and flexibility are ideal for repairing cracks and joints on patios, stairs, sidewalks, floors and driveways.

For use on: concrete, stucco, mortar, masonry and brick

- Prevents damage caused by ice and water
- Interior/exterior use
- Excellent adhesion and flexibility
- Great for indoor use

Meets or exceeds performance requirements of Federal Specification TT-S-001543A Class A (COM-NBS) for silicone building sealants and TT-S-00230C Class A (COM-NBS) for one-component sealants, C-920, Class 25.

PRODUCT	COLOR	SIZE
WL70212	Cement Gray	10.0 fl.oz.

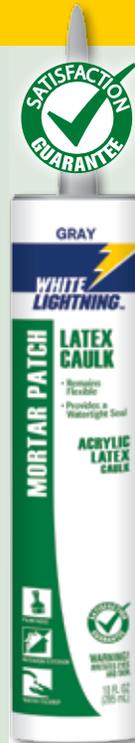

CONCRETE

WHAT'S IN A NAME? Caulk vs. Sealant

“Caulk” typically refers to general purpose products that fill gaps between building materials. They usually have average adhesion, low expansion and contraction qualities and generally do not perform as well outside. Caulks usually meet ASTM Specification C-834.

“Sealants” are typically considered high performance products and have very good adhesive properties – they stick well. They will adhere to a broad range of substrates. They also recover well when stretched or compressed – like in temperature extremes, so they perform well outside. Sealants usually meet ASTM Specification C-920.

CONCRETE

MORTAR PATCH Latex Caulk

This water clean-up formula provides a durable seal for repairing holes in concrete, mortar, cinder block, stucco, stone, limestone and brick. Commonly applied at driveways, sidewalks, patios, above ground foundations and in various types of masonry.

For use on: concrete, stucco, mortar, masonry and brick

- Remains flexible
- Dries to a paintable finish
- Provides a watertight seal

CONCRETE

PRODUCT	COLOR	SIZE
WL70112	Cement Gray	10.0 fl.oz.

SPECIALTY

White Lightning® Specialty caulks and sealants provide superior performance for applications such as concrete or mortar repair, roof repair and gutter lap installation, smoke & fire blocking and weatherproofing.

SILICONE ULTRA Gutter & Flashing Sealant

This 100% silicone, high performance sealant features superior adhesion to many surfaces. It provides a weathertight seal that remains flexible and is tough enough to stand up to the elements. Ideal for sealing gutters, flashing, downspouts, lap joints, roof vents and siding.

For use on: aluminum/metal, wood, plastic, rubber, vinyl, concrete, mortar and stone

- Superior adhesion to metal, wood, masonry and vinyl
- Weatherproof and watertight seal
- Permanently flexible/non-shrinking

Meets or exceeds performance requirements of Federal Specification TT-S-001543A Class A (COM-NBS) and TT-S-00230C Class A (COM-NBS) ASTM C-920, Type S, Grade NS, Class 25, 13-M82.

PRODUCT	COLOR	SIZE
WL000117	Clear	10.0 fl.oz.

BUTYL RUBBER Caulk

Butyl Rubber Caulk is a high performance product that is ideal for sealing exterior gutters, corrugated roofing, pipes, aluminum and vinyl siding, lap joints, flashing, roof vents and drain spouts. Provides an insulated, watertight seal for areas exposed to the elements.

For use on: aluminum/metal, plastics, rubber, concrete, wood, vinyl, mortar and stone

- Remains flexible in temperature extremes
- Minimal shrinking
- Provides an insulating, watertight seal
- Exterior use

Meets performance requirements of Federal Specification TT-S-001657 and ASTM Specification C-1085.

PRODUCT	COLOR	SIZE
WL00114	White	10.0 fl.oz.

ROOFING & GUTTERS

ASPHALT ROOF CEMENT Sealant

Asphalt Roof Cement is ideal for sealing leaks and openings and provides a durable, watertight seal when waterproofing, repairing or sealing roofs. Commonly applied at flashing, copings, roof decks, roof vents and repairing loose shingles.

For use on: asphalt, vinyl, aluminum, concrete, stone, brick and cement

- Excellent adhesion and weatherproofing
- Long-lasting watertight seal
- Withstands temperature extremes
- Can be applied to wet surfaces

Meets ASTM D-3409, ASTM D-453, Type 1

PRODUCT	COLOR	SIZE
WL00215	Black	10.0 fl.oz.

ROOFING & GUTTERS

ROOFING & GUTTERS

White Lightning® Specialty caulks and sealants provide superior performance for applications such as concrete or mortar repair, roof repair and gutter lap installation, smoke & fire blocking and weatherproofing.

FLAME BUSTER® Intumescent Silicone Sealant

This expanding, neutral cure intumescent sealant is designed to prevent the spread of fire, smoke and toxic gases. When exposed to temperatures above 300°F, it expands to fill the voids left by collapsed materials.

For use on: PVC and other plastic through-penetrations

- Expands at temperatures over 300°F
- Expands to 6 times original volume (at 662°F)

Meets specifications ASTM E-814, ASTM E-84, UL1479, UBC7-5, CAN4/ULC-S115M

PRODUCT	COLOR	SIZE
WL8801010	Red	10.0 fl.oz.

FIRE & SMOKE BLOCKING

FLAME BUSTER® High Heat Fire & Smoke Blocking Latex Caulk

This latex caulk is designed to resist high temperatures and smoke in non-rated construction.

For use on or around: wires, pipes, ducts and vents in wood or steel framed non-rated construction

- Resists temperatures up to 1380°F
- Blocks drafts, smoke and fire
- Easy application and clean-up

Meets ASTM E-136

PRODUCT	COLOR	SIZE
WL8803030	Red	10.0 fl.oz.

FIRE & SMOKE BLOCKING

FLAME BUSTER® Fire & Smoke Blocking Silicone Sealant

This premium silicone sealant is designed to block the spread of smoke and fire. It forms a water-resistant seal that will also resist smoke and toxic gases, ultraviolet radiation and ozone.

For use on: copper and other metal through-penetrations

- Will withstand temperatures up to 300°F
- Resists cracking
- Can be applied in temperatures ranging from -20°F to 122°F

Meets ASTM E-814, UL1479 and UBC 7-5

WL8802020	Red	10.0 fl.oz.

FIRE & SMOKE BLOCKING

FLAME BUSTER® Intumescent Latex Caulk

White Lightning® Flame Buster® Intumescent Latex Caulk is an elastomeric, intumescent sealant that expands when exposed to fire or extreme heat, forming an insulated char. Flame Buster® Intumescent Latex Caulk will prevent the spread of toxic gases, smoke and fire. It is suitable for adhesion to almost any surface and remains flexible, making it ideal for both horizontal and vertical joints, subject to vibration or dynamic movement. Flame Buster® Intumescent Latex Caulk can be used for interior or exterior applications, and can be painted (after inspection).

For use on or around: wires, pipes, ducts and vents

- Expands to 5 times original volume (at 600°F)
- Interior/exterior use
- Remains flexible
- VOC compliant
- Safe to handle
- Water clean-up

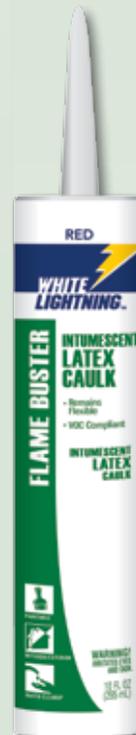

Meets ASTM E-814 (UL1479) and meets the criteria for fire/smoke/draft stop for BOCA - CABO - UBC - SBCCI - IRC

(after inspection)

FIRE & SMOKE BLOCKING

SPECIALTY

White Lightning® Fix'n Finish® products take the stress out of common repair jobs. They are formulated for smooth and easy application, long lasting durability, and top performance.

1-STEP LIGHTWEIGHT Spackling Compound

An interior patching product formulated not to shrink, even on large surface repairs. Ideal for filling holes and cracks in most common construction surfaces.

For use on: wallboard, plaster, drywall, wood, concrete and masonry

- Interior use only
- No shrinking or cracking
- Cured spackling compound is rust/mildew resistant
- Non-slump formula for smooth application
- Excellent filling capacity

PRODUCT	COLOR	SIZE
WL60512	White <input type="checkbox"/>	1/2 pint
WL60520	White <input type="checkbox"/>	Quart

PAINTER'S PUTTY

This pliable putty is ideal for sealing and filling cracks, small openings and holes in wood. It seals and repairs surfaces to create a finished, professional look. It is packed in water for extended shelf life.

For use on: all interior and exterior wood surfaces

- Fills imperfections quickly
- Resists cracking, sagging and shrinking
- Excellent adhesion
- Easy to knead
- Paintable

PRODUCT	COLOR	SIZE
WL08116	Tan <input type="checkbox"/>	Quart

VINYL SPACKLING Compound

This heavy-bodied interior spackling compound provides excellent adhesion and minimal shrinkage for numerous surface patching applications.

For use on: wallboard, plaster, drywall & wood

- Excellent adhesion, minimal shrinkage
- Easy application and clean-up
- Sandable and paintable
- Interior use only

Meets performance requirements of Federal Specification SS-P-00450A, Type II

PRODUCT	COLOR	SIZE
WL060115	White <input type="checkbox"/>	1/2 pint

TIPS:

After the White Lightning® spackling compound dries, sand smooth if desired. Let the area dry for 30 minutes before painting. Large holes or cracks may require longer drying times. It is always recommended to prime with spackling compound before top coating with paint. Due to the porosity of some substrates, the entire surface to be painted may require primer for the most uniform appearance of the topcoat. Clean-up with water.

White Lightning® Fix'n Finish® products are formulated for smooth and easy application, long lasting durability, and top performance.

COLOR CUE® Lightweight Spackling Compound

This lightweight spackling compound goes on pink and dries white to indicate when it's time to sand and paint! It is an extremely light, smooth formula that fills in one coat without shrinking or cracking. Ideal for finishing and repairing imperfections.

For use on: drywall, fiberboard, concrete and masonry, wallboard and plaster

• TELLS YOU WHEN TO SAND AND PAINT!

- Cured spackling compound is rust and mildew resistant
- Odorless, non-flammable
- No added water prevents shrinking and cracking
- Hollow glass beads provide excellent filling capacity

GLAZING Compound

This product is blended from a unique combination of high quality pigments and resins specially formulated for sealing glass in wood, metal and aluminum frames. Glazing Compound may also be used to patch cracks and gouges, fill voids in vertical concrete or for repairing surface splits or knots in lumber.

For use on: wood, metal and aluminum windows

- Seals window panes in wood and metal frames
- Watertight seal
- Will not crack or yellow with age
- Paintable
- Interior/exterior use

For LEED Compliance

Many of the products featured in our catalog are formulated with lower VOC (volatile organic compound) levels, reducing emissions into the ozone and promoting healthier air within buildings.

White Lightning® sealants and caulks are at the forefront for complying with LEED (Leadership in Energy and Environmental Design) standards. Whether the project is for commercial buildings, residential homes, schools or hospitals – to name a few – White Lightning® can help contractors comply with LEED.

For example, Indoor Air Quality is one of the categories measured by LEED for commercial buildings and Environmentally Preferable Products is one of the categories for homes. White Lightning® products (shown on pages 16-17) contribute to LEED qualification with a one-point credit for sealants and adhesives that are classified as environmentally preferable and rated as low-emitting materials for use on the interior of a building. This is good news for painting and building contractors who choose White Lightning® to meet the caulk and sealant specifications of the job.

Silicone Ultra All Purpose Sealant

This 100% silicone sealant features formulation, durability and UV resistance. Ideal for interior and exterior jobs.

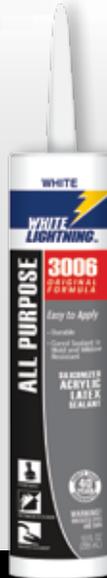

See page 4 for product details.

3006 ULTRA® All Purpose Electrometric Sealant

A premium sealant with outstanding flexibility and adhesion for filling joints with high levels of movement.

See page 5 for product details.

3006™ All Purpose Adhesive Caulk

Perfect for most general-purpose jobs and is mildew and rust resistant when cured.

See page 5 for product details.

BOLT® Quick Dry Siliconized Acrylic Latex Caulk

Can be painted within 30 minutes and is ideal for time sensitive projects.

See page 5 for product details.

Painter's Preferred® Acrylic Latex Caulk

Is economical and for general-purpose use.

See page 6 for product details.

All Purpose Products

LEED Rating Systems

Architects, facility managers, building owners, interior designers, developers and specifiers use LEED construction principles to achieve LEED certification for sustainable building and development practices, which result in lower building operating costs, increased value and resale opportunities, possible tax incentives, and access to construction grant money.

To achieve LEED certification, architects, builders and contractors try to get as many LEED points as possible from all aspects of a building, including sustainability, water efficiency, energy use, materials and design. For more information about LEED Rating systems, visit the U.S. Green Building Council web site at www.usgbc.org.

Get to know the White Lightning® line of caulks and sealants and discover how they can help a building project earn LEED points.

Latex Ultra Premium High Gloss Sealant

A high-performance product formulated to seal and waterproof joints and seams.

See page 8 for product details

Kitchen | Bath

Siliconized Acrylic Latex Caulk

Provides a weathertight/watertight seal for interior and exterior applications.

See page 9 for product details.

Window | Door

Polyurethane One-Component Sealants (smooth and textured)

Are moisture cure, non-sag and gun grade; ideal for sealing joints of dissimilar substrates.

See page 11 for product details.

Special Jobs

1-STEP Lightweight Spackling Compound

An interior/exterior patching product formulated not to shrink or crack when filling holes or cracks on large surface repairs.

See page 14 for product details.
